SEWERAGE IN THE COUNTRY

One great problem peculiar to the rural districts is that of the proper disposal of organic refuse and similar waste matter. In the cities such matter is completely and satisfactorily taken care of in the modern sewerage system, and thus the city is enabled to preserve a cleanliness which is of greatest aid in fighting disease.

When such matter is allowed to stand in the open, as every rural resident knows, it becomes a swarming place for flies and a hot bed for disease germs; it pollutes the soil and the drinking water, and is always an unsightly and embarrassing nuisance. Such conditions are generally the cause of sickness and disease.

The Sanitary Septic Tank, especially designed along improved lines, for use in the rural districts, and manufactured by Weston & Hooker, Columbia, S. C., completely solves the problem of sewage disposal for the rural homes. It is of small size, made of reinforced concrete simple, easy to install, never gets out of order, nor needs attention. Placed just beneath the surface, and connected with the house by a short pipe line, it securely keeps the poisonous organic waste matter enclosed until by natural process, it disintegrates, and then seeps out into the ground, harmless mineral matter and water. There is no odor, no soil pollution. Approved by health authorities.

Its cost is small. It affords all the conveniences and the full protection of the city sewerage system. It is well worth your while to know all about this Septic Tank, and you can do so by simply writing to Weston & Hooker, Columbia, S. C.

MR. SHAW'S MULE.

And now brother voter, can you think of any invention Half so rotten, as the State Democratic Convention

That convention met, to defeat. Cole, L. Blease. And they didn't cease, If they was destitute of the Peace.

For they knew It wouldn't do to wait. If they did Blease would sweep the State.

And it it, they went, to see what they could do. Monkeying with the Primary, to fool me and you.

Up jumps a haskelite I have a good plan To make every voter signe the club Roll in his own hand.

For we must do this to head off the fight. To keep the poor from voting for we know they can't write.

Here is, Mr. Pollock, who ever heard of such a man. To receive the Smithites money to carry out their dirty plan.

He must go from City to City, and then from town to town. And get up before the people, and cry Cole, Blease, down.

And now, bro, Dailey, they tell me your hat is in the ring. To run for commissioner, who ever heard of such a thing.

And if you don't be Elected I know, it will make you wait. To see you couldn't get the job, hold. ing to Smith, coat Tail.

Now here is friend Lawrence, who will get in with all Ease. Because, is a supper of Cole, L. Blease.

And when the Election is over. Let me tell you what you will see. If the votes are counted right, it will be Commissioner McGee.

Now, that Missouri, Smith Mule, of Which you speak. It will come in after while all besmeared with defeat.

You will have to use the curry comb and rub with a Cob. And you will Swear by all good and bad you never had such a job.

And when the State Election is over, and the people are all at Ease. If the Votes are counted right it will be Senator, Blease.

All hale the name of Blease then the man you don't Love at all. But the Bleasettes all Will Shout the Song And Coley, has beat them all.

And now, Mr. Galley, you are going to turn, the Smith Mule out, and run it away. Oh, Blease before you do this give the poor thing a Little bunch of hay.

For you have run the mule to Smiths defeat. Blease don't run it off until you give it Something to Eat. Good by, Jack.

Now that old razor back, you wouldn't Let Blease feed. About next January, the hame you

will need.

Let the pig be fed, no matter how it comes. For I tell you, good old ham gravy helps the biscuit, crumbs.

Voter Did Not Try to Heckle Candidates — Good Order Featured Meeting

The second day of the Anderson county campaign was featured yesterday by splendid behavior on the part of the audience at Iva. The voters gave every candidate a respectful hearing and there was no attempt made toward heckling any of the candidates or in any other way was there any effort made to disturb the office seekers of the crowd.

The meeting was called to order at 10:20 o'clock and for four hours the candidates told the people of that community about why the country is not immediately to go to the wall if they are not selected to turn the handle of the county government machinery. The meeting was adjourned at 2:20 o'clock.

Practically all of the candidates were in attendance and there was little departure from the general outline of the Honca Path meeting, which was the first of the campaign. The time allowed the candidates for the House of Representatives to speak was increased from five minutes to seven minutes but a number of these did not take up all the time allowed. None of the candidates departed from the platform outlined by them Saturday and practically the same speeches were delivered.

Frequently some favorite candidate was loudly cheered but nothing approaching disorder was seen throughout the day.

NEW DEPARTMENT HARD AT WORK

Bureau of Markets of National Government Recently Established After Material

That all of the office holders of the United States are not sleeping on their jobs is shown by a request which J. W. Rothrock, farm demonstration agent, has just received. The request asks information concerning the cotton storing capacity of Anderson county and comes from Director Brant, of the Bureau of Markets, United States government. This bureau was but recently established and Mr. Brant is already getting in some good work. This will be of more than ordinary interest to American people because Mr. Brant is well known in Anderson, having made trips from Washington to this county.

The complete storing capacity of Anderson county for cotton, including the 16 mills, the Farmers' Union and the Regular or Standard Warehouse, is 101,200 bales and this information has been forwarded to Washington by Mr. Rothrock.

ute of the nation, were piled high over the tomb.

Memories of the Past.

On the way to the cemetery the procession passed the house where Mrs. Wilson lived as a girl, and another spot above the banks of the Etowah river where tradition has it that she promised to become the future president's bride. Nearly was a statue to the Women of the South, the inscription on which was written by the president a few years ago. On every side were scenes which recalled vividly to him the days of his young manhood and sweet memories of her who now lies in a grave in her old home.

Within less than four hours from the hour the funeral train arrived, the president and his party were once more on board their special cars and the return journey was begun.

SHAKE-UP COMING IN LOCAL POLICE FORCE

SAID THAT SAMMONS SUCCEEDS LEE

A NEW CITY CLERK

Speculation Heard Over How Many Members of Police Will Lose Positions

It has been rumored for several days that a number of changes in the personnel of city officials is contemplated. The city council last night had no opportunity to elect and as it had been announced that the meeting to elect would be held this morning it was considered improper to the applicants to go ahead with the selection.

The city clerk, Mr. J. H. Godfrey, having become mayor, this important position will be filled. It is understood that the present capable assistant clerk, Mr. E. M. Scott, will be promoted to the position of clerk and that he will have no assistant as Mayor Godfrey will give some of his time to assisting in the clerical work.

The impression is that the council will make a change in the head of the police department and that Chief W. C. Lee will be succeeded by Sergeant J. W. Simmons. Mr. Simmons has made no effort to get the place, but was considered on his merit and will no doubt be selected.

There will hardly be any change in the fire department, at least none in the person of the chief, for in Chief W. L. Jackson all of the citizens of Anderson have the greatest confidence.

It is also stated that Capt. G. Cullen Sullivan is slated for the position of city attorney. He is too well known in Anderson for any introduction, Mr. John K. Head, has been the city attorney for several years.

Some other changes will probably be made, but those of chief of police and city clerk are the ones in which there is the most interest. It was stated some days ago that Dr. J. C. Mitchell, meat inspector, would be succeeded by Dr. John Major, upon the recommendation of the board of health.

John Sammons, who will probably become chief of police on the 1st of September, is a native of Greenville county, but has lived in this county for 25 years. He has been a member of the force for five years, and in that time has shown energy, courage and determination and at the same time tact, and other qualifications.

It is rumored that several of the private officers on the force are slated to go to make room for others.

POOR RICHARDS IS IN A CORNER

The Terrible Bleasite Candidates Can't Tell How He Voted in 1912.

Special to The Intelligencer.

Union, August 11.—John G. Richards, made famous by the title "coat-tail swinger," in the state campaign, took the defensive today for the first time. At the meeting here today he refused to state for whom he voted in 1912. The question was put squarely to him by W. C. Irby, Jr., long time friend and supporter of Gov. Blease. Richards did not answer Irby's question. He declared that he had never committed himself on the race. Irby told the voters that he had it on good authority that Richards voted for Judge Jones in the 1912 campaign.

There were more than 1,000 voters in attendance upon the meeting today. Lowndes J. Browning was given an ovation by the voters, this being his home county. Mr. Browning was presented with a silver loving cup.

The crowd was noisy today and an attempt was made to heckle several anti-Bleasite candidates. The speakers changed little from the regular paths at the meeting.

A SERIOUS SITUATION.

New York, Aug. 11.—Through failure of British and German vessels to report weather conditions at sea because of the fear that their locations will be forwarded to hostile cruisers, the weather bureau is unable to give notice of West Indian hurricanes now probably forming. Owners of ships sailing to South American and West Indian ports and officials in the local forecaster's office declared today the situation was extremely serious.

MINES PLANTED IN NORTH SEA

ENGLAND AND GERMANY HAVE MADE NAVIGATION DANGEROUS

PORTS BLOCKED

Four Neutral Nations Injured by Planting of Explosives—Navigation Perilous

Washington, August 11.—Mining the North sea as part of the plan of the European war not only may close most of the northern Europe ports to navigation, but the gold-laden cruiser Tennessee, the cruiser North Carolina and neutral passenger vessels bearing Americans from Europe will be confronted with new dangers.

The American government was advised formally during the day by the British embassy here that, inasmuch as Germany had been "scattering mines indiscriminately" Great Britain no longer could refrain from planting mines near her own ports.

Will Take No Chances.

Secretary Bryan said tonight Americans at home might rest assured that the passenger lines plying between Northern European ports would take no chances that would imperil life. It is believed that Americans in northern ports will remain there for the present or make their way south and southeast to such ports as Marseilles or Lisbon to obtain passage for the United States.

In only one or two places in Europe notably at Genoa, in Italy, and in Sweden, does the financial embarrassment of Americans continue, according to reports received today by Secretary Garrison. The situation has improved so much that it may be unnecessary to deposit any gold in the Europe for the relief of Americans. Nearly all of the European governments are believed to be desirous of establishing heavy credits with America to draw upon in payment for the vast quantities of food and supplies of other kinds which they must have during the continuance of hostilities and for a long time afterwards.

Panic About Over.

Secretary Garrison thinks, therefore, that as soon as the first panic feeling is over and financial conditions have been readjusted, the mere announcement that the United States or an individual has deposited specie in an American bank, subject to the draft from European countries, will be sufficient to establish credit for Americans in Europe.

Cruisers Arrive.

San Francisco, Aug. 11.—The cruisers West Virginia and South Dakota, returning from Honolulu, arrived here today. They made the trip to the Hawaiian Islands last month, each towing a submarine.

NEARING COMPLETION.

Four Dreadnaughts Are Almost Ready for Service.

Washington, Aug. 11.—Two of the navy's four new dreadnaughts now building were nearly three-fourths completed on August 1, according to comparative figures issued today. The Nevada at the yards of the Fore River Shipbuilding Company and the Oklahoma, under construction by the New York Shipbuilding Company, are most advanced with a respective percentage of completion of 72.4 and 72.6. The total percentage of completion of the Pennsylvania, building at Newport News, is 42, and that of the Arizona, at the New York Navy Yard is 24.4.

ANNUAL APPROPRIATION.

Fund for Military Supplies Apportioned by Secretary.

Washington, Aug. 11.—Announcement was made by the war department today that out of the total of \$2,000,000 annually appropriated by congress for apportionment among the states for the purchase of supplies and ammunition under the militia law, \$1,599,362 has been set aside by the secretary of war for that purpose during the fiscal year 1915. The remainder, amounting to \$400,637, has been reserved for special allotment from time to time at the discretion of the secretary.

The amounts allotted to South Atlantic States for the fiscal year 1915 are as follows:

Florida, \$13,781.50; Georgia, \$25,517.69; North Carolina, \$30,344.94; South Carolina, \$20,922.34; Virginia, \$37,004.81.
